

## BruceWorks Concept Advisory Service

FACEBOOK: [HTTPS://WWW.FACEBOOK.COM/BRUCEWORKSACT](https://www.facebook.com/bruceworksact)

2016

BruceWorks advisory service is a smart starting point for your new investment. It draws upon the skills and expertise of Bruce himself, together with our in house staff combining the landscaping maintenance and building division. Bruce is a licensed builder who has been operating in the ACT for over 20 years he can not only advise on appropriate building and landscape options, but has many creative ideas to assist you in obtaining the best advice to suit your needs, desires and budgets. Staff expertise includes the services of a registered landscape architect with 12 years experience in the residential and commercial landscaping design.

Remodelling builds upon more traditional home improvement concepts by enhancing existing exterior and even interior elements, while integrating these with new developments to create a unified and harmonious theme.

As remodelling is more of an ongoing process than one-off building projects it can be implemented in stages and progressively adapted as the overall concept evolves.

The aim of this remodelling process is to transform your interior and exterior living areas into an integrated space which will help create a lifestyle for life.

Our ability to develop your design, provide both architectural soft and hard scapes , renovate your interior and exterior areas, lay synthetic grass and even install your swimming pool is what makes us Canberra's premier remodelling team. Our Concept Centre also means that you can call in seven days a week and see our feature displays and materials.

BruceWorks charges a fee of \$150.00 per advisory service which provides you with the opportunity to obtain information and advice during the consultation. Be prepared with plans, sketches wants ideas and questions for Bruce to consider. Bruce can advise of likely costs, materials, construction techniques, planning and approvals, access considerations, cost effectiveness and resale values. **PLEASE NOTE:** If the client goes ahead with the work at the completion of their job they will receive the \$150.00 back on their final invoice.

Photos of our work can be viewed at our facebook page <https://www.facebook.com/bruceworksact> or our website <http://bruceworks.com.au/>
